PingFederate®

PingID SDK Integration Kit

Access Online Documentation

Please use the links below to access online documentation for the PingFederate PingID SDK Integration Kit:

- See the *Administration Guide* for information on installation and setup, and the *Development guide* for implementing PingID SDK integration with PingFederate in your applications.

- See the *Release Notes* for new features, known issues, and other testing information.

Complete documentation for all PingFederate products is available under Product Documentation at pingidentity.com.

Get Product Support

- For problems with deployment, installation, or configuration, please visit the Ping Identity Support Center (ping.force.com/Support) where you can search the Support Knowledge Base and explore other Support options.

- To post questions and review solutions submitted by other customers, use the Support Center's discussion section (ping.force.com/Support/PingIdentityAnswersHome).
